HITARTH DIWAN  **MISHA LILWANI**

45/45

A remarkable **ACADEMIC ACCOMPLISHMENT**
that places these two students among the
**WORLD'S HIGHEST-ACHIEVING
IB STUDENTS.**

CONGRATULATIONS
IBDP Class of 2026

Perfection is never achieved by chance. It is earned through unwavering commitment.

We are immensely proud to celebrate Hitarth Diwan and Misha Lilwani of the IBDP Class of 2026 for achieving a perfect score of **45/45** in the International Baccalaureate Diploma Programme, placing them among the world's highest-performing IB students.

This exceptional achievement is a testament to years of intellectual curiosity, resilience, disciplined effort, and an enduring passion for learning.

Congratulations, Hitarth and Misha. Your accomplishment reflects the very best of what dedication can achieve, and we wish you every success as you embark on the exciting journey ahead.

Primary Years

Curiosity is where meaningful learning begins.

Our Grade 3 learners have begun their new unit, Passion Project - under the transdisciplinary theme How We Express Ourselves. Through this unit, students will explore the central idea that curiosity helps us extend our ability to think, create, and express ourselves.

The journey began with Curiosity Boxes filled with intriguing objects, clues, and prompts that encouraged students to observe closely, ask thoughtful questions, make connections, and wonder about the possibilities.

Students then took part in a series of Exploration Sessions, where they experienced a variety of skills, including stitching, macramé, origami, fireless cooking, research, story writing, and more. The purpose wasn't to master a skill in a day, but to give every child the opportunity to try something new, discover what excites them, and begin thinking about where their passions might lie.

As the unit unfolds, students will explore how their ideas, experiences, and expressions are connected, how inspiration and imagination help shape new ideas, and how reflecting on their learning helps them grow.

We are excited to see our learners follow their curiosity, discover their interests, and express themselves in meaningful and creative ways - one question, one idea, and one experience at a time.

Middle Years Programme

Guest Session: Global Supply Chains (Grade 9 - Integrated Humanities)

Grade 9 students had the opportunity to engage in an insightful guest session with **Ms. Pooja Sant**, an Export-Import and Logistics professional with over a decade of industry experience. The session explored the journey of products across the globe, highlighting global supply chains, international trade, and the interdependence of countries. Through real-world examples and interactive discussions, students connected classroom concepts to real-life applications, gaining a deeper understanding of the global economy.

Diploma Programme

Design Technology + Physics Integration (Grade 12)

This was phase 1 of DT + Physics Integration.

Phase 1: Load Testing Investigation

- Introduction to load testing with real-life engineering examples.
- Demonstration and Testing.
- Discussion of observations, results, and engineering concepts.
- This concludes Phase 1 of the project.

English - G12

G12 Language students were asked to compare & contrast various contextual factors in 'Pygmalion' and 'A Doll's house' and present their finding.

Mavericks Learning Center

Explore - X, 2026 - Exploration Showcase Event

What an incredible day of curiosity, confidence, and discovery !

Our Junior Mavericks proudly shared their exploration journeys, presenting not just what they learned, but how stepping into unfamiliar domains helped them discover new interests, perspectives, and possibilities.

From the thoughtful event preparations to the seamless execution, the Maverick spirit was visible in every detail. It was inspiring to see students take ownership, present with confidence, and celebrate their learning with our parent community.

With ExploreX now complete, our Mavericks move on to the next exciting chapter, finalising their projects and turning curiosity into meaningful action.

Here's to journeys that begin with exploration and grow into purpose.
